Stephanie, Mike, Sharon and Amy,

Attached are 3 reports (PDF format) that we want to post on the website... these are the weekly environmental monitoring and production summaries.

With your approval, I will get these posted to the website.

Also attached per your request is a spreadsheet that shows the average turbidity by tidal period since August 3, with the raw data table attached.

I will send you by the end of today in a separate file more details on the air COPC data (detection limits, etc.).
